

Superior sound and video via multiple displays

Scenario: Place of Worship

A religious sector's program takes place in one building, spread out in 3 floors and is continuously aired 24 hours a day, 7 days a week. They need to simultaneously broadcast the program to all members through a television set up in each floor. The audio and video quality must also be clear.

ATEN Solutions

Media Distribution Solutions

The ATEN complete MDS Media Distribution Solution is a cost-effective and efficient way to send high quality multimedia content over Cat 5e cable to multiple displays from a single input source.

Benefits

- Superior video quality – 1920 x 1200 that is sustained over long distances
- Cost effective and easy to install
- Audio/Video content transmitted over Cat 5e/6 cable into multiple displays
- Covers long distances – several meters away or across separate building floors
- CD-quality audio for crisp and clear sound
